

Statement of Forecast Service Performance of Departments

Statement of Forecast Service Performance

The Statement of Forecast Service Performance of departments included in the National Identity Sector comprise the service performance information for all departmental output expense appropriations that are proposed to be used by those departments. In this context, service performance information comprises the scope, expenses and revenue, and output performance measures and standards for each class of outputs within those departmental appropriations, as set out in Part 2.1 of the Performance Information for Appropriations in Each Vote.

The following table identifies the classes of outputs incorporated in the Statement of Forecast Service Performance for each department in the National Identity Sector. In some circumstances, this may include reference to classes of outputs within appropriations presented in Votes in other sectors.
