

Statements of Forecast Service Performance of Departments

Statements of Forecast Service Performance

The Statements of Forecast Service Performance of agencies included in the Environment Sector comprise the service performance information for all departmental output expense appropriations that are proposed to be used by those agencies. In this context, service performance information comprises the scope, expenses and revenue, and output performance measures and standards for each class of outputs within those departmental appropriations, as set out in Part 2.1 of the Performance Information for Appropriations in Each Vote.

The following table identifies the classes of outputs incorporated in the Statement of Forecast Service Performance for each department and Office of Parliament in the Environment Sector.

Department	Composition of Statement of Forecast Service Performance
Department of Conservation	The service performance information in Part 2.1 for the classes of outputs within all the departmental output expense appropriations in Vote Conservation.
Ministry for the Environment	The service performance information in Part 2.1 for the classes of outputs within all the departmental output expense appropriations in: <ul style="list-style-type: none"> • Vote Climate Change • Vote Environment.
Parliamentary Commissioner for the Environment	The service performance information in Part 2.1 for the classes of outputs within all the departmental output expense appropriations in Vote Parliamentary Commissioner for the Environment.
