## Financial Statements

Statement of Financial Performance	10
<i>The statement outlines the operating results of the total Government (ie, the revenues and expenses of all departments + Reserve Bank + NZS Fund (core Crown), SOEs (including Air New Zealand), and Crown entities). Expense by functional class is also shown for total Crown and core Crown.</i>	
Analysis of Expenses by Functional Classification	11
<i>Breakdown of expenses by function for total Crown and core Crown.</i>	
Statement of Comprehensive Revenue and Expense	12
<i>The statement reports changes in net worth due to the operating balance, items of revenue or expense that are recognised directly in net worth, the effect of certain accounting changes, and corrections of errors.</i>	
Statement of Changes in Net Worth	12
<i>The statement provides a reconciliation of opening and closing net worth for the period.</i>	
Statement of Cash Flows	13
<i>The statement sets out the cash flows that result from the operating, investing and financing activities of the Government. The net cash flows from operations are reconciled to the operating balance reported in the statement of financial performance.</i>	
Statement of Financial Position	15
<i>The statement outlines the balance sheet of the total Government (ie, the assets and liabilities of the core Crown, SOEs, and Crown entities).</i>	
Statement of Borrowings	16
<i>The statement outlines total borrowings (split by sovereign-guaranteed debt and non sovereign-guaranteed debt), including the calculation of the core Crown debt indicators.</i>	
Statement of Commitments	17
<i>The statement outlines the commitments of the total Government by type and segment.</i>	
Statement of Contingent Liabilities and Assets	17
<i>The statement outlines the contingent liabilities and assets of the total Government by type and segment.</i>	
Notes to the Financial Statements	18
<i>The notes are an integral part of the financial statements, providing further explanatory material to that provided in the main statements.</i>

## COMMENTARY

## S U M M A R Y

The Financial Statements of the Government provide a record of the Government's financial performance for the eight months ended 28 February 2015 and its financial position as at that date.

The February results are reported against forecasts based on the 2014 *Half Year Economic and Fiscal Update (HYEFU)*, published on 16 December 2014.

### At a Glance

**Table 1** – Key indicators for the eight months ended 28 February 2015 compared to *HYEFU*

\$ million	Year to date				Full Year
	February	February	Variance	Variance	June
	2015	2015	to HYEFU	to HYEFU	2015
	Actual <sup>1</sup>	Forecast <sup>1</sup>	\$m	%	Forecast <sup>2</sup>
<b>Core Crown</b>					
Core Crown tax revenue	42,414	42,252	162	0.4	65,626
Core Crown revenue	46,026	45,970	56	0.1	71,466
Core Crown expenses	47,231	47,543	312	0.7	73,018
Core Crown residual cash	(3,683)	(4,110)	428	10.4	(4,009)
Gross debt <sup>3</sup>	87,470	83,950	(3,519)	(4.2)	80,289
<i>as a percentage of GDP</i>	36.8%	35.3%			33.6%
Net debt <sup>4</sup>	63,537	64,224	687	1.1	63,494

<b>Total Crown</b>					
Operating balance before gains and losses	(269)	(612)	343	56.0	(572)
Operating balance	(952)	941	(1,893)	(201.2)	1,900
Net worth attributable to the Crown	74,570	76,454	(1,884)	(2.5)	77,376

1 Using GDP for the year ended 31 December 2014 of \$237,924 million (Source: Statistics New Zealand).

2 Using forecast GDP for the year ended 30 June 2015 of \$239,188 million (Source: Treasury).

3 Gross sovereign-issued debt excluding settlement cash and Reserve Bank bills.

4 Net core Crown debt excluding student loans and other advances. Net debt may fluctuate during the year largely reflecting the timing of tax receipts.

*Core Crown includes Ministers, Departments, Offices of Parliament, the NZS Fund and the Reserve Bank of New Zealand but excludes State-owned enterprises and Crown entities.*

### Results for the eight months ended 28 February 2015

The total Crown's **operating balance before gains and losses (OBEGAL)** was a deficit of \$269 million in the eight-month period, \$343 million lower than forecast, reflecting higher than forecast tax revenue and lower than anticipated core Crown expenses.

**Core Crown tax revenue**, at \$42.4 billion, was 0.4% or \$162 million above forecast. This variance was mainly due to higher-than-expected other individuals tax (\$217 million) and corporate tax (\$91 million). Partially offsetting these, GST was \$261 million lower than forecast primarily due to higher-than-forecast earthquake-related refunds and weaker-than-forecast growth in nominal consumption.

**Core Crown expenses**, at \$47.2 billion, were \$312 million lower than forecast. This variance was spread over a number of departments.

Net losses on non-financial instruments were \$4.3 billion higher than forecast, mainly due to actuarial losses on the ACC and GSF liabilities mostly reflecting lower interest rates and a weaker inflation outlook. Partially offsetting the net losses, net gains on financial instruments were \$1.7 billion higher than forecast largely due to favourable market movements. As a result, the **operating balance** was a deficit of \$952 million (\$1.9 billion below forecast).

The **core Crown residual cash** position, at deficit of \$3.7 billion, was \$428 million stronger than forecast, mainly due to capital payments being \$308 million less than forecast. **Net debt**, at \$63.5 billion, (26.7% of GDP) was \$0.7 billion lower than forecast, largely reflecting the residual cash result and higher public demand for currency in circulation. **Gross debt** at \$87.5 billion (36.8% of GDP) was \$3.5 billion higher than forecast but was matched by an increase in financial assets with no flow on impact to net debt.

At 28 February, total Crown assets were valued at \$263.5 billion and liabilities were \$183.7 billion while the Crown's share of **net worth** stood at \$74.6 billion.

Further analysis of the February results follows.

## ANALYSIS

**Table 2** – Key indicator variances for the eight months ended 28 February 2015 compared to *HYEFU*:

Item/indicator	Variance <sup>1</sup>	Key drivers
<b>Core Crown</b>		
Core Crown revenue	\$56 million higher than forecast	<p>Core Crown revenue was higher than forecast mainly due to core Crown tax revenue being \$162m higher than expected across the following tax types:</p> <ul style="list-style-type: none"> <li>• Other individuals tax was \$217m (7.2%) above forecast largely due to higher-than-forecast provisional tax payments reflecting stronger profitability, mostly amongst non-farm taxpayers.</li> <li>• Corporate tax was \$91m (1.6%) above forecast, mainly driven by provisional tax being above forecast. This strength is currently expected to remain until June.</li> <li>• Customs and excise duties were \$68m (2.3%) above forecast mainly owing to tobacco excise being above forecast, partly offset by lower-than-expected fuel excise.</li> <li>• GST was \$261m (2.3%) below forecast, mainly due to larger-than-forecast earthquake-related refunds of around \$150m, with the remainder largely attributable to growth in nominal consumption being weaker than was forecast in the <i>HYEFU</i>.</li> </ul> <p>Offsetting this higher-than-forecast tax revenue, petroleum royalties were \$127m lower than forecast. This was partly due to timing and partly due to a reduction in oil prices.</p>
Core Crown expenses	\$312 million lower than forecast	<p>Core Crown expenses at \$47.2b were \$312m lower than forecast. Excluding the top-down expense adjustment of \$428m, underlying expenses were \$740m lower than expected, spread across a number of departments. The largest variances related to lower than expected applications for grants and subsidies and education-related expenses, and delays in finalising treaty settlements.</p>
Core Crown residual cash deficit	\$428 million lower than forecast	<p>The residual cash deficit was \$428m lower than forecast. With core Crown tax receipts tracking close to forecast, the residual cash deficit was largely due to lower than forecast capital payments.</p> <ul style="list-style-type: none"> <li>• Core Crown tax receipts were tracking close to forecast across most tax types, consistent with tax revenue, with the exception of corporate tax and GST. Corporate tax receipts were \$153m lower than forecast largely due to a larger-than-forecast movement of income tax payments from February to March as a result of the 28 February due date falling in a weekend. GST receipts were below forecast, similar to GST revenue.</li> <li>• Capital payments were \$308m below forecast largely relating to delays in capital projects; in particular Canterbury and defence projects.</li> </ul>
Gross debt	(\$3,519 million) higher than forecast	<p>Gross debt at \$87.5b (36.8% of GDP) was \$3.5b higher than forecast. This variance was mainly attributable to increased borrowings and short term trading positions. The increased debt was largely held in financial assets so has no flow on impact to net debt.</p>
Net debt	\$687 million lower than forecast	<p>Net debt was \$63.5b, or 26.7% of GDP, \$687m lower than forecast. This variance was largely due to the lower than expected residual cash deficit explained earlier. Additionally, \$308m was due to greater public demand for currency in circulation than had been forecast.</p>

<sup>1</sup> Favourable variances against forecast have a positive sign and unfavourable variances against forecast have a negative sign.

Item/indicator	Variance <sup>1</sup>	Key drivers
<b>Total Crown</b>		
Operating balance before gains and losses deficit	\$343 million lower than forecast	The OBEGAL deficit at \$269m was \$343m lower than forecast.  The key drivers of the OBEGAL variance were higher core Crown revenue and lower core Crown expenses as previously discussed.
Operating balance	(\$1,893 million) lower than forecast	The operating balance was in deficit by \$952m and below forecast by \$1,893m.  In addition to the favourable OBEGAL result, the University of Canterbury settled its insurance claims arising from the Canterbury earthquakes, positively impacting the operating balance by \$330m.  More than offsetting these favourable results, net gains were tracking \$2,628m below forecast. The variance in net gains was mainly due to actuarial losses on the ACC and Government Superannuation Fund (GSF) liabilities (\$2,494m and \$1,644m respectively) partially offset by \$1,666m higher than forecast net gains on financial instruments largely due to favourable market, interest and FX movements.
Net worth attributable to the Crown	(\$1,884 million) lower than forecast	Net worth was \$74.6b, \$1.9b lower than forecast mainly due to a lower than forecast operating balance as explained above.

<b>Total core Crown expenses</b>	<b>47,231</b>	<b>45,856</b>	<b>1,375</b>	<b>3.0</b>
Net surplus of SOE/CE's (and inter-segment eliminations)	936	1,287	(351)	(27.3)
<b>OBEGAL</b>	<b>(269)</b>	<b>(1,393)</b>	<b>1,124</b>	<b>80.7</b>
Total gains/(losses)	(1,208)	4,961	(6,169)	(124.3)
Other operating items	525	153	372	243.1
<b>Operating balance</b>	<b>(952)</b>	<b>3,721</b>	<b>(4,673)</b>	<b>(125.6)</b>
<b>Core Crown residual cash</b>	<b>(3,683)</b>	<b>(3,951)</b>	<b>268</b>	<b>6.8</b>
<b>Debt indicators</b>				
<b>Gross debt<sup>2</sup></b>	<b>87,470</b>	<b>83,328</b>	<b>4,141</b>	<b>5.0</b>
<b>Net debt<sup>3</sup></b>	<b>63,537</b>	<b>60,038</b>	<b>3,499</b>	<b>5.8</b>

<sup>1</sup> Due to the seasonal nature of some expenditure it is not appropriate to annualise these changes.

<sup>2</sup> Gross sovereign-issued debt excluding settlement cash and Reserve Bank bills.

<sup>3</sup> Net core Crown debt excluding NZS Fund, student loans and other advances.

## Revenue and Expenses

**Core Crown taxation revenue** for the eight months ended 28 February 2015 increased by \$2,943 million (7.5%) on the same period last year. Improving macroeconomic conditions have led to growth in other direct taxes (13.6%), other individuals tax (12.3%), corporate tax (12.4%) and GST (5.1%).

Total **core Crown expenses** increased by 3.0% on the same period last year. The main increases relate to the following:

Functional expense	Movement from previous year	Main drivers of the change
<b>Increases:</b>		
Social security and welfare	+ \$518 million	Indexation of welfare benefits and increase in recipient numbers, particularly NZ Superannuitants.
Education	+ \$262 million	Funding provided in the 2014 Budget to maintain and improve existing service levels.
Finance costs	+ \$187 million	A direct result of the increased debt levels currently held.
Health	+ \$164 million	Funding provided in the 2014 Budget to maintain and improve existing service levels.
Environmental protection	+ \$127 million	\$103 million of this relates to the Crown's signing of the Deed of Indemnity with Solid Energy.
Other functional class	+ \$117 million	
<b>Total</b>	<b>\$1,375 million</b>	

## Gains/Losses

**Total net losses** were \$1,208 million in the eight months to February 2015, compared to gains of \$4,961 million in the previous year due largely to the actuarial losses on the ACC and GSF liability in the current period.

## Debt

**Gross debt** has increased by \$4,141 million or 5.0% from February 2014. **Net debt** has increased by \$3,499 million or 5.8% over the same time, largely owing to continued cash deficits.

## Notes on borrowings:

Total borrowings can be split into sovereign-guaranteed and non-sovereign-guaranteed debt. This split reflects the fact that borrowings by SOEs and Crown entities are not explicitly guaranteed by the Crown. No debt of SOEs and Crown entities is currently guaranteed by the Crown.

- Government bonds includes \$395 million of infrastructure bonds.
- Core Crown borrowings in this instance includes unsettled purchases of securities (classified as accounts payable in the statement of financial position).
- Gross Sovereign-Issued Debt (GSID) represents debt issued by the sovereign (the core Crown) and includes Government stock held by the New Zealand Superannuation Fund (NZS Fund), ACC and EQC.
- Core Crown financial assets exclude receivables.
- Net Core Crown Debt represents GSID less financial assets. This can provide information about the sustainability of the Government's accounts, and is used by some international agencies when determining the creditworthiness of a country.
- Adding back the NZS Fund assets provides the financial liabilities less financial assets of the Core Crown, excluding those assets set aside to meet part of the future cost of New Zealand superannuation.
- Net Core Crown Debt (excluding NZS Fund and advances) excludes financial assets which are held for public policy rather than treasury management purposes.
- The Reserve Bank has used \$1.6 billion of settlement cash to purchase reserves that were to have been funded by the NZ Debt Management Office borrowing. Therefore, the impact of settlement cash on GSID is adjusted by this amount.

The accompanying notes and accounting policies are an integral part of these statements.

## STATEMENT OF COMMITMENTS

as at 28 February 2015

	As at 28 Feb 2015 \$m	As at 30 Jun 2014 \$m	As at 28 Feb 2014 \$m

A list of unquantifiable contingent liabilities is included on the Treasury's website  
<http://www.treasury.govt.nz/budget/forecasts/hyefu2014/041.htm>

The accompanying notes and accounting policies are an integral part of these statements.

# NOTES TO THE FINANCIAL STATEMENTS

---

## NOTE 1: Accounting Policies

### Reporting Entity

These financial statements are the consolidated financial statements for the Government reporting entity as specified in Part III of the Public Finance Act 1989. This comprises:

- Ministers of the Crown
- Government Departments
- Offices of Parliament
- New Zealand Superannuation Fund
- Reserve Bank of New Zealand
- State-Owned Enterprises (SOEs)
- Crown Entities (excluding Tertiary Education Institutions)
- Air New Zealand Limited
- Organisations listed in Schedule 4 and 4A of the Public Finance Act 1989
- Organisations listed in Schedule 5 of the Public Finance Act 1989
- Organisations listed in Schedule 6 of the Public Finance Act 1989

A schedule of the entities that are included in the Government reporting entity was set out on pages 91 - 93 of the *2014 Half Year Economic and Fiscal Update* released on 16 December 2014.

With the exception of the 30 June 2014 comparative figures, all actual, forecast and comparative figures presented in these financial statements are unaudited.

### Basis of Preparation and General Accounting Policies

These unaudited interim financial statements of the Government reporting entity comply with generally accepted accounting practice as defined in the Financial Reporting Act 2013 and have been prepared in accordance with Public Sector PBE Accounting Standards (PBE Standards), including *PBE IAS 34 Interim Financial Reporting*. The Government reporting entity is a public benefit entity. Public benefit entities (PBEs) are reporting entities whose primary objective is to provide goods or services for community or social benefit and where any equity has been provided with a view to supporting that primary objective rather than for a financial return to equity holders.

These financial statements are prepared in accordance with PBE Standards. There were no material adjustments as a result of transitioning to PBE standards.

The measurement base applied is historical cost adjusted for revaluations of property, plant and equipment (where appropriate), commercial forests; and marketable securities, deposits and equity investments held for trading purposes. The accrual basis of accounting has been used unless otherwise stated.

These financial statements have been prepared on a going concern basis.

### Specific Accounting Policies

The specific accounting policies of the Crown are detailed on the Treasury's internet site:  
<http://www.treasury.govt.nz/publications/guidance/reporting/accounting>

### Forecasts

The annual forecasts in these financial statements are for the year to 30 June 2015.

The accounting policies underlying the preparation of forecasts are set out in the Statement of Accounting Policies reproduced in full on the Treasury's internet site:  
<http://www.treasury.govt.nz/publications/guidance/reporting/accounting>

## NOTES TO THE FINANCIAL STATEMENTS

---

### NOTE 1: Accounting Policies (continued)

#### Comparative Figures

When presentation or classification of items in the financial statements is amended or accounting policies are changed voluntarily, comparative figures have been restated to ensure consistency with the current period unless it is impracticable to do so.

#### Variance Percentages

Percentage variances between the actual and comparative balances exceeding 500% are not shown.

#### Judgements and Estimates

The preparation of these financial statements requires judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. For example, the present value of large cash flows that are predicted to occur a long time into the future, as with the settlement of ACC outstanding claim obligations and Government Superannuation retirement benefits, depends critically on judgements regarding future cash flows, including inflation assumptions and the risk free discount rate used to calculate present values. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

A further area of uncertainty relates to the estimation of the claims and provisions arising from the Canterbury earthquakes. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.
