The adjustments in the table above reflect the new multi-category appropriation Quality of Education: Evaluations and Services set up for Vote ERO. The table shows how past expenditure would have changed if the restructured appropriations had been in place before 2012/13.

### 1.3 - Analysis of Significant Trends

Vote ERO contains appropriations for output expenses and capital expenditure.

From 2012/13 to 2016/17 total departmental output expense appropriation levels for outputs supplied by ERO were steady, including:

- increases in 2015/16 and 2016/17 due to higher levels of contractual evaluation services provided by
- increases in 2013/14 and 2014/15 for additional evaluations of schools that are non-compliant with National Standards.

From 2017/18 to 2020/21 total departmental output expense appropriation levels for outputs supplied by ERO will increase due to additional investment in education evaluations for accountability and improvement. This will support the effectiveness of education evaluation by enabling ERO to undertake additional early learning service evaluations to meet the growth in this sector and address wage cost pressures.

There are no significant trends in capital expenditure appropriation levels.

From 2017/18 a new multi-category appropriation Quality of Education: Evaluations and Services was established. This multi-category appropriation aggregates the two appropriations Accountability Reviews MCA and Quality of Education Reports and Services. Both of these appropriations use similar resources in working toward the same purpose of providing evaluations of quality of education provided to all young New Zealanders.

Explanations of the reasons for changing the appropriation structure are noted in the details of each appropriation in Parts 2-4.

## Part 2 - Details of Departmental Appropriations

### 2.3 - Departmental Capital Expenditure and Capital Injections

#### **Education Review Office - Capital Expenditure PLA (M26)**

Scope of Appropriation

This appropriation is limited to the purchase or development of assets by and for the use of the Education Review Office, as authorised by section 24(1) of the Public Finance Act 1989.

| Total Appropriation           | 1,879                   | 1,879   | 830 |

#### What is Intended to be Achieved with this Appropriation

This appropriation is intended to achieve the renewal and replacement of ERO's assets that supports the delivery of its services.

#### How Performance will be Assessed and End of Year Reporting Requirements

|  | 2010                       | 2017/18  |          |

| Expenditure is in accordance with ERO's capital expenditure plan | 75%-100%                   | 75%-100% | 75%-100% |

ERO is not a capital intensive department. Assets are purchased according to a planned assets replacement programme to maintain and upgrade capability essential to the operation of ERO. The major areas of capital investment for ERO are office accommodation, motor vehicles and computer equipment.

#### End of Year Performance Reporting

Performance information for this appropriation will be reported by ERO in its Annual Report to be tabled in the House.

#### Reasons for Change in Appropriation

The decrease in this appropriation for 2017/18 is mainly due to two building re-fits in 2016/17 only.

ERO recognises an education evaluation as an output at the time it is available for delivery to the Minister of Education. Partially complete evaluations are not reported.

ERO's Manual of Standard Procedures is a framework used by reviewers so that there is consistency nationally in undertaking evaluations. It describes the processes to be followed, the evaluation indicators to be used, and the accepted principles of good practice for conducting evaluations. The Manual of Standard Procedures also set out quality standards relating to the investigation and reporting processes, and to the content, presentation and timeliness of evaluations. It also describes the quality management procedures to be applied systematically within ERO.

From time to time, ERO will undertake external reviews to give the Chief Executive assurance on the extent to which education evaluations are meeting its quality standards in addition to using a moderation panel.

Communities of Learning are part of the Investing in Educational Success initiative. To support this initiative, ERO provides a report for each Community of Learning to assist them in developing their 'achievement challenges' to complement the data profiles that the Ministry of Education will provide. Each ERO report will give an overview of how well schools are performing based on their recent reporting history and is tailored for each Community of Learning regarding the strengths and areas that they could consider for improved outcomes. The number of reports required will depend on the number of Communities of Learning approved by the Minister of Education.

National education evaluations provide information on significant education issues and education sector performance. In particular, ERO will provide information for individual schools, communities and the Government on how well schools are assisting their students to achieve educational standards and qualifications, using assessment, and promoting the educational success of students, particularly Māori and Pacific. This information will be used by government education policy agencies to determine the effectiveness of current initiatives and to establish priorities, and by schools and early childhood education services in their own internal evaluation. Education evaluations include guides to good practice. The information for these evaluations is gathered from the institutional evaluations carried out by ERO or by specialist ERO teams for particular topics.

ERO uses the State Services Commission's Kiwi Count survey to assess the level of public satisfaction with ERO's evaluation work. ERO also commissions sample studies to ascertain the extent to which particular evaluations are found useful and used by key audiences.

Policy services involve advice to, or on behalf of, the Minister of Education, on policy proposals or any other issues referred to, or identified by, the Chief Executive. ERO is not primarily a provider of policy advice. From its regular presence in schools and early childhood services it is, however, in a position to make a useful contribution to assist the policy agencies. This service will contribute to the Government's policy priorities for schools and early childhood education service.

Ministerial services include the provision of oral briefings and briefing papers to the Minister, preparation of answers to parliamentary questions, drafting of ministerial correspondence and speech notes, and

responding to general and official information requests. Ministerial services also include advice to the Minister on the implementation of recommendations arising from institutional evaluations and education evaluations, or any other matter on which the Minister seeks additional information or feedback.

Contractual evaluation services include additional one-off evaluations outside ERO's normal work programme. These may be requested at short notice to look at particular matters under specific terms of reference. Contractual services are conducted on a fee for service basis.

#### End of Year Performance Reporting

Performance information for this appropriation will be reported by ERO in its Annual Report to be tabled in the House.

#### Reasons for Change in Appropriation

The increase in this appropriation is due to additional investment in education evaluations for accountability and improvement partially offset by lower levels of contractual evaluation services provided by ERO forecasted in 2017/18 compared to 2016/17.
