

Statements of Forecast Service Performance of Departments

Statements of Forecast Service Performance

The Statements of Forecast Service Performance of departments included in the Education and Science Sector comprise the service performance information for all departmental output expense appropriations that are proposed to be used by those departments. In this context, service performance information comprises the scope, expenses and revenue, and output performance measures and standards for each class of outputs within those departmental appropriations, as set out in Part 2.1 of the Performance Information for appropriations in each Vote.

The following table identifies the classes of outputs incorporated in the Statement of Forecast Service Performance for each department in the Education and Science Sector.

Department	Composition of Statement of Forecast Service Performance
Ministry of Education	The service performance information in Part 2.1 for the classes of outputs within all the departmental output expense appropriations in: <ul style="list-style-type: none"> • Vote Education • Vote Tertiary Education.
Education Review Office	The service performance information in Part 2.1 for the classes of outputs within all the departmental output expense appropriations in Vote Education Review Office.
