# Annex 4: Draft capital package prioritisation diagram

## Assumptions included

- Capital pre-commitments (\$902m) have been allocated to the High risk cost pressure category
- Potential additions and out of scope initiatives have been included in the low risk and low priority categories pending further decisions.

Manifesto Initiatives (Total of \$2.7 billion)

## Interpreting the graph

### Manifesto Initiatives Prioritisation

**High priority** – Mentioned specifically in the Coalition Agreement (CA), Confidence and Supply Agreement (CSA), or Speech from the Throne (ST); AND is Consistent with Priority Areas identified by Budget Ministers; AND will be implementation ready by 1 July AND costings are accurate.

**Medium priority** – Mentioned in the CA, CSA or ST; AND is consistent with priority areas outlined in the Budget Policy Statement; AND will be implementation by 1 July or within the next 6 months.

**Low priority\*** – Not mentioned in the CA, CSA or ST; may still be aligned to priority areas. Likely Treasury recommendation is to defer to future Budgets once costings are complete and the initiative is implementation ready.

\*To give you a full picture of all submitted initiatives, we have also included any out of scope initiatives and not supported initiatives in this section.

### Cost pressure Prioritisation

#### Based on a RAG risk rating of not funding

**High risk** – If the initiative is not funded, there may be a breach of legislation or obligation/reputational risk, and there may be operational failure for the department; AND the impact will be felt in the 2018/19 financial year.

**Medium risk** – if the initiative is not funded, there may be service delivery and/or operational risks to the department; AND some components could be deferred to Budget 2019.

**Low risk\*** – if the initiative is not funded, there may be a policy impact with minimal/manageable service implications; and/or can defer to Budget 2019.

\*To give you a full picture of all submitted initiatives, we have also included any out of scope initiatives and not supported initiatives in this section.

### The Current draft capital package

This is currently made up of the high and medium risk cost pressure initiatives and high and medium priority manifesto initiatives that Treasury is supporting. It does not include any Minister identified priorities that are not high or medium rated, or any out of scope initiatives with merit or risk. It is currently higher than the allowance and key trade offs will need to be made to ensure that the package fits in the available allowance.

### Trade-offs

**A package weighted towards cost pressures** (current Treasury preferred option to weight package towards high-risk cost pressures)

#### Negatives:

- Less 'new' initiatives to announce for Budget 2018.
- May impact colleagues' expectations of new funding when initiatives have been outlined in Government agreements.

#### Positives:

- Reduces the risk of operational and service delivery failure for departments.
- Will likely reduce the number of cost pressures that will need to be funded in the next few Budgets, and will reduce the risk of more expensive cost pressures if deferred.

### A package weighted towards manifesto initiatives

#### Negatives:

- Manifesto initiatives could crowd out high-risk cost pressures that may impact on operations and service delivery for departments, and have flow on impacts to New Zealanders.
- Not funding some high-medium risk cost pressures in Budget 2018 will likely put a lot of pressure on Budgets 19 and 20
- if high risk cost pressures are deferred, if funding is sought again in future Budgets, the costs may be higher.

#### Positives:

- More 'new' initiatives may show that the Government is delivering on its commitments that have been made publically.
